.Net Backend Developer

PROFILE SUMMARY

.NET Backend Developer with 1+ year of experience building scalable REST APIs and cloud-based background services using ASP.NET Core and .NET Worker Services. Skilled in Clean Architecture, microservices design, and database management with SQL Server and PostgreSQL. Hands-on experience with Azure and GCP, focusing on performance optimization, production support, and reliable distributed systems.

TECHNICAL SKILLS

- **Technologies:** .NET Core, ASP.NET Core Web API, .NET Worker Services
- **Programming Languages:** C#, JavaScript, SQL
- **Front End Technologies:** HTML, CSS, Angular (basics)
- **Architecture:** Clean Architecture, MVC, Dependency Injection, Microservices
- **Databases:** SQL Server, PostgreSQL, Google Cloud Alloy DB
- **Source Control:** Git, GitHub
- **Cloud Computing:** Microsoft Azure, Google Cloud Platform (GCP)
- **ORM:** Entity Framework Core
- **Incident Management Tools:** Azure DevOps
- **Testing Tools:** xUnit, Postman, Visual Studio, Visual Studio Code
- **Logging:** Seri log, Azure Application Insights

PROFESSIONAL EXPERIENCE

Junior .NET Backend Developer
Royal Value Solutions (RVS)
May 2025 – Present

KEY PROJECTS & RESPONSIBILITIES

Project #1
AoT Billing Data in the Cloud
Duration: May 2025 – Present
Tech Stack: C#, .NET Worker Service, ASP.NET Core Web API, GCP, Alloy DB, PostgreSQL, Azure Service Bus

Responsibilities:

- Developed background services using .NET Worker Service for scheduled and real-time billing data processing
- Built RESTful APIs using ASP.NET Core following Clean Architecture principles
- Designed event-driven workflows using Azure Service Bus
- Integrated Google Cloud Alloy DB for high-performance database operations
- Implemented retry logic and error handling to ensure reliable data processing
- Monitored applications using Azure Application Insights and Seri log logging
- Wrote unit tests using xUnit to improve code quality and maintainability
- Collaborated in Agile sprints, participated in code reviews, and contributed to timely feature delivery

Key Achievements:

- Improved system reliability by implementing structured logging and monitoring
 - Reduced production issues through proactive debugging and performance tuning
 - Contributed to scalable cloud-based billing architecture handling enterprise-level data
-

EDUCATION

Diploma in Mechanical Engineering (DME)

PRPC, Thanjavur, Tamil Nadu

2019 – 2022 | **74.08%**

SSLC

Blake Higher Secondary School, Thanjavur, Tamil Nadu

2018 – 2019 | **55.50%**

ADDITIONAL INFORMATION

- Strong understanding of backend development and API design
 - Familiar with Agile methodology and team collaboration
 - Passionate about learning new technologies and improving coding standards
- .
